

HEAVY DUTY BALL VALVE

H-1700 series

The H-1700 Series is a high-performance instrumentation ball valve for general service. The H-1700 series fits heavy duty service, thanks to its superior robust design, featuring ease of use and high cycle durability

FEATURES:

- Shut-off-service ball valve with 2-way pattern
- Stainless steel 316 3-piece construction
- Blow-out proof stem
- Maximum allowed working pressure 6000 psi (413 bar)
- Temperature range: -50°C up to -260°C (-58°F-572°F)
- Various end connection types and sizes from 1/8" to 1/2" (3mm to 12mm)

ADVANTAGES:

- High cycle performance
- Thermal cycle durability
- Low operating torque
- PEEK seat as standard – induced for high-pressure and high-temperature applications
- Excellent chemical resistance
- Large and ergonomic handle for better grip

APPLICATIONS

- Cannabis oil extraction
- High pressure oil systems process.
- Oil & Gas pressure reduction systems
- High pressure utilities
- High pressure drains valves
- Power plant skids
- Laboratories and test equipment
